

# PAKISTAN SAFETY EQUIPMENTS

**TRADE DEVELOPMENT AUTHORITY  
OF PAKISTAN**

## TDAP INTRODUCTION

Trade Development Authority of Pakistan is the premier trade promotion organization mandated to develop and promote products and services of the country in international markets.

TDAP implements policies and directives of Federal Government and its Board of Directors for enhancing, promoting and facilitating trade.

TDAP supports and facilitates businesses through latest information and capacity building initiatives to enhance and improve their leverage in international trade.

To achieve its objectives, TDAP organizes as well as participates in local & international trade fairs, country specific exhibitions, trade delegations, conducts seminars and organizes contacts and information exchange events both physically as well on digital platforms.

This publication is part of the efforts of TDAP to share details and showcase Pakistan's products and services in international markets.

# PRODUCT PROFILE

Pakistan, with its growing industrial base and workforce, holds immense potential as an exporter of safety equipment. Currently, a large portion of the safety equipment used in the country is imported, creating a significant gap in the domestic market. This presents an exciting opportunity for Pakistani manufacturers to capitalize on the rising demand and capture a significant share of the global market.

## GLOBAL MARKET:

The global safety equipment market is expected to reach \$86.5 billion by 2027, driven by factors such as increasing awareness about occupational safety, stringent regulations, and expanding industrial activities. Key product segments within this market include:

- Personal Protective Equipment (PPE)** This includes items like helmets and safety gloves (plastic and rubber)
- Fall Protection Equipment:** This includes harnesses, lanyards, lifelines, and anchorages.
- Fire Protection Equipment:** This includes fire extinguishers, fire alarms, and fire suppression systems.
- Industrial Safety Equipment:** This includes lockout/tag out devices, machine guarding, and safety signage.
- Traffic Safety Equipment:** This includes cones, barricades, and reflective vests

Pakistan holds several key advantages that can propel it to the forefront of the global safety equipment export market:

- Cost-Effectiveness:** Lower labor costs offer significant price competitiveness compared to developed nations.
- Raw Material Availability:** Easy access to essential resources like rubber, crucial for safety equipment manufacturing.
- Skilled Workforce:** A growing pool of skilled workers can be trained and equipped to meet international standards.
- Strategic Location:** Proximity to major markets in the Middle East, Central Asia, and Africa opens doors to lucrative export opportunities.

## HS CODES OF SAFETY PRODUCTS

Code	Product label
611610	Gloves, mittens and mitts, impregnated, coated, covered or laminated with plastics or rubber only
650610	Safety headgear
650699	Headgear
853180	Electric sound or visual signaling apparatus
630720	Life jackets and life belts, of all types except textile materials
842410	Fire Extinguishers
900490	Safety Goggles

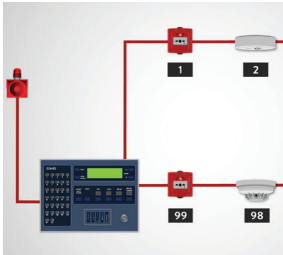

## PRODUCTION AREAS WITH MAP

IN PAKISTAN, CLUSTERS OF INDUSTRIAL SAFETY EQUIPMENT ARE PRESENT  
IN FOLLOWING CITIES:

# VARIETIES OF SAFETY EQUIPMENT IN PAKISTAN

Conventional Fire Alarm System

Fire Sprinkler System

Protective Clothing

Walk Through Gates

## TESTING AND CERTIFICATION AGENCIES

## PACKAGING & STORAGE
